Workshop leader, Lincoln Smith, explains that "Permaculture" offers a vision for how people can re-integrate their lives with the ecosystem.

We'll explore the principles of designing human support systems and run through an exercise that will get you started in planning your permaculture project.

COMMITTEE FOR A BETTER ENVIRONMENT PRESENTS THE MOVIE "FORKS OVER KNIVES"

**MONDAY, MARCH 17, 2014 - 7:00 PM
COLLEGE PARK COMMUNITY LIBRARY
CHURCH OF THE NAZARENE
9704 RHODE ISLAND AVE., COLLEGE PARK**

"FORKS OVER KNIVES" examines the profound claim that most, if not all, of the degenerative diseases that afflict us can be controlled, or even reversed, by rejecting our present menu of animal-based and processed foods and adopting a whole-foods plant-based diet.

The major storyline in the film traces the personal journeys of a pair of pioneering yet under-appreciated researchers, Dr. T. Colin Campbell and Dr. Caldwell Esselstyn. The filmmakers travel with Drs. Campbell and Esselstyn on their separate but similar paths then their partnership of exploring ideas that challenged the established thinking and shook their own core beliefs. The film also features leading experts on health, examines the question "why we don't know" and tackles the issue of diet and disease. Length: 96 minutes. FREE

RSVP requested but not required—email janiso@erols.com or call 301-474-5358. For more details on this film, go to <http://www.forksoverknives.com/about/synopsis/>.
